Request Overview (1 minute in an elevator sharing the innovation. Go!)

In 300 words or less describe the learning innovation or challenge, and how it will improve learning for your students.

Note: We are looking to support learning innovations which have the potential to expand to other students, classrooms and schools in the school division and which focus on enhanced student engagement by empowering young people to explore their passions and create change in their classrooms, their schools and their community.

Innovation in Learning (Enhancing student engagement & learning)

How will the innovation enhance side by side learning, collaboration and knowledge construction?	In what ways will the learning be relevant, rigorous and involve risk taking?	What important question(s) will be answered or problem(s) will be solved?
--	---	---

Hearing Student Voice (How are students involved & what do they have to say?)

<p>What inspires and excites you about this learning innovation? Why is it important to you?</p>	<p>How do you think this learning innovation will make a difference for your learning and the learning of others?</p>
--	---

Enhancing Communities/Partnerships (Changing your corner of the world)

<p>What partnerships will be developed or community resources accessed through this learning innovation? How will students be involved with this?</p>	<p>What potential positive long term community impacts would you highlight?</p>	<p>How might this innovation expand to benefit other students, classrooms and schools?</p>
---	---	--

Feasibility & Budget (Details of timeline and how you plan to spend the money)

Outline the timeline for this learning innovation.	Provide a detailed budget including projected expenses.
--	---

Assessment (How will you know that the learning innovation was successful?)

By June 2018, what do you hope to celebrate regarding this learning innovation?	What evidence of success will you collect?	How will you share this with the Foundation?
